MEMORANDUM FOR: SECRETARY, JOINT INTELLIGENCE COMMITTEE
THE JOINT CHIEFS OF STAFF

SUBJECT: Procedures for Furnishing NAT Military
Organizations with U. S. Intelligence

REFERENCE: Memorandum from Secretary, JIC, to DCI,
dated 1 Oct 51, JICM-580-51

1. This Agency agrees with the procedures outlined in the reference memorandum for furnishing NAT military organizations with U. S. intelligence and will assist in any way appropriate in making intelligence available for this purpose. It is noted that these procedures apply only with respect to the military components of NATO. We assume that in each case the Agency which has originated or produced the intelligence will be consulted before its release.

2. It is our understanding that the usual machinery for producing national intelligence will be used in preparing intelligence which transcends the exclusive competence of the military services and deals with the broad aspects of national policy and national security.

3. This Agency intends to raise with the Intelligence Advisory Committee, at an early date, the general question of the dissemination of national intelligence to foreign governments and the means by which this should be authorized and controlled.
